

Hello, we are **Rocketo** Graphics and we would like to say **Thank you** for purchasing our products, we hope you can find it really useful.

Here are a couple of instructions that you might need at the time to start editing your presentation but If you need any other help please **feel free to contacting us** via message in our CreativeMarket Profile.

Thank you.

ROCKETO GRAPHICS TEAM

Please support our works leaving a **Good Recommendation** in the website of our product.

How to Edit or Delete the Footer (Page Number or Logo)

- (1) View Menu
- (2) Select Master
- (3) Select Slide Master
- (4) Make your edits or delete what you need
- (5) Save
- (6) Close Master Slide

Changing Colors via .xml files

We included several Color Themes in .xml format. You need to install them before to use them in PowerPoint. You just need to install them once and after doing that they should be in your library.

In the .zip file you just downloaded you will find a folder called: XML FILES please copy that folder in your system. You can find the address depending to your OS.

Windows 7:

First Option

C:\Program Files\Microsoft Office\Document Themes 15\Theme Colors

Second Option

C:\Program Files\Microsoft Office 15\root\Document Themes 15

Windows 8:

C:\Users\YourUserName\AppData\Roaming\Microsoft\Templates\Document Themes\Theme Colors

Mac Office 2011

MacintoshHD > Users: *YourUserName* > Library > Application Support > Microsoft:Office > User Templates > My Themes > Theme Colors

If you don't see the **Library** folder please follow these instructions: [http:// osxdaily.com/2011/07/04/show- library-directory-in-mac-os-x-lion/](http://osxdaily.com/2011/07/04/show-library-directory-in-mac-os-x-lion/)

Mac Office 2016

/Applications/Microsoft PowerPoint.app/Contents/Resources/Office Themes
